Condition details

A H&B colleague helped you with your condition:

Fatigue

Fatigue is a feeling of constant tiredness or weakness and can be physical, mental or a combination of both. It can affect anyone, and most adults will experience fatigue at some point in their life.

Symptoms:

- Parts of your life, such as work and family, that might be particularly tiring
- Any events that may have triggered your tiredness, such as bereavement or a relationship break-up
- How your lifestyle may be making you tired
